A doctor performs his duty for 480 minutes daily. How many hours does he work daily?

A. 2 hours
B. 4 hours
C. 6 hours
D. 8 hours

Show Answer...
Correct Answer: 8 hours

To find this time in hours, we will divide the minutes by 60.
480 min = 480 ÷ 60 hr
480/60= 8
The number of daily hours = 8 hours
