Sentence Correction of English Précis and composition 2022 Paper

1. *I used to walk two miles to school every morning when I was a child.*
(Replace 'must' with 'Used to', as it shows a past time constant activity).
2. *After the storm, we had to pick up some fallen branches.* (The structure 'have got' means present necessity, its past form is only 'had' for demonstrating past necessity)
3. *Guitar is more popular instrument among teen age boys than in girls.*
(Comparison always takes a comparative degree of adjective)
4. *You are not feeling better, I wish you get well soon.* (Rearrange the relevant parts together).
5. *The grass is not looking green because it has not been raining since last month*. (Erase 'now' as it is redundant here because the first part is already about the ongoing present (=now), and Use Present Perfect Progressive Tense in the second part to correct it grammatically and logically)
6. *The cold air made me shiver while I was waiting for him.* (Being shivered cannot be weighed as a little or more, so erase 'a little' and replace 'when' with 'while' as it takes continuous tense to create a logical sense)
7. *I offered my seat to an old woman who just smiled me.* (As there is no comparison, so use 'old' to describe the single, old woman).
8. *She packed up her bags, carried them (over) downstairs, and put them on/behind the back seat of her car.* (Prepositional deficiency, and use comma (,) before conjunction 'and' as keep a short pause before the last clause)

6. *Look off* the weather... (means not according to the condition given, in negative sense).
7. *Went along* the brow of the hill. (For a road curved in or over the hill)
