

How many bones are there in the human skull?

- A. 10
- B. 22
- C. 32
- D. 42

Show Answer...

Correct Answer: B (22)

Explanation:

The human skull is made up of 22 bones, including the mandible (lower jaw) and the cranium (skullcap). The cranium is made up of eight bones, while the face is made up of 14 bones, including the mandible. The skull provides protection for the brain and the sense organs of sight, hearing, taste, and smell.
