

It takes 4 minutes to boil an egg. How much times will it take to boil 3 eggs together?

**It takes 4 minutes to boil an egg.
How much times will it take to boil 3
eggs together?**

- A. 12 minutes
- B. 4 minutes
- C. 3 minutes
- D. 36 minutes

Show Answer...

Correct Answer: B (4 minutes)

Explanation:

If it takes 4 minutes to boil a single egg, boiling multiple eggs together does not increase the time significantly. The time required to boil multiple eggs is the same as boiling a single egg, as long as they are placed in the water at the same time. Therefore, it will take 4 minutes to boil 3 eggs together.
