

Nanocomposite materials are useful in the food industry as they prevent packaged food from damage due to: (CSS MPT 2024)  
Nanocomposite materials are useful in the food industry as they prevent packaged food from damage due to: (CSS MPT 2024)

All of these

Fire

Heat

Floods

Show Answer...

**Correct Answer: All of these**

**Nanocomposite materials are useful in the food industry as they prevent packaged food from damage due to:**

A. All of these

B. Fire

C. Heat

D. Floods

### **Explanation:**

Nanocomposite materials are versatile and can be designed to provide protection against various environmental factors. They are used in the food industry to prevent damage from fire, heat, floods, and other potential threats to packaged food.
