Correct Answer: Awake

Hypnotized means

The antonym of “hypnotized” is “awake,” meaning to be fully conscious and aware, rather than being in a trance or hypnotic state.

To hypnotize someone means to put them into a trance or hypnotic state, often for the purpose of therapy or entertainment. Hypnotism involves using techniques such as relaxation and suggestion to induce a state of heightened suggestibility in the subject, who is then more receptive to the ideas and suggestions of the hypnotist. The trance state is usually a natural state of mind that people experience at various times in their lives, such as when they are daydreaming or focused intently on a task. In hypnotherapy, the hypnotist may use hypnosis to help the subject overcome negative habits or behaviors, reduce anxiety or stress, or improve their overall well-being. In entertainment, hypnotists may use hypnosis to create the impression of extraordinary abilities or to entertain an audience with humorous or bizarre suggestions.
