

The synonym of “sapped” is _____.

The synonym of “SAPPED” is _____.

- A. Drained
- B. Strengthened
- C. Energized
- D. Invigorated

Show Answer...

Correct Answer: A (Drained)

Explanation:

The synonym of “sapped” is A, “Drained.”

The word “sapped” means to gradually weaken or exhaust something or someone, often by steadily depleting their energy, resources, or strength. Its synonym would be a word that carries a similar meaning. Option A, “Drained,” is the correct synonym as it signifies the act of depleting or exhausting something or someone.

Option B, “Strengthened,” is not the correct answer as it represents the opposite meaning. Strengthening implies making something stronger, which is the opposite of “sapped.”

Option C, “Energized,” is not the correct answer either as it signifies invigorating or providing energy, which is contrary to the meaning of “sapped.”

Option D, “Invigorated,” is also not the correct answer as it means to fill with energy, vitality, or vigor, which is the opposite of “sapped.”

Understanding synonyms helps to expand vocabulary, improve writing, and enhance communication by providing alternative words with similar meanings.
