

What does the phrase “falls on deaf ears” mean?

What does the phrase “falls on deaf ears” mean?

- A. A pleasant sound
- B. Being ignored or not listened to
- C. Having a hearing impairment
- D. A sudden loud noise

Show Answer...

Correct Answer: B (Being ignored or not listened to)

Explanation:

The phrase “falls on deaf ears” is an idiomatic expression that means when something, such as a message, request, or advice, is disregarded or ignored by the intended recipient. It implies that despite the effort to communicate or convey a message, it is met with indifference or lack of attention.

Understanding the Phrase “Falls on Deaf Ears”

“Falls on deaf ears” is a figurative phrase commonly used to describe a situation where someone’s words, ideas, or opinions are dismissed or not given any consideration. It suggests that the recipient of the message is unresponsive or uninterested, much like a person who is deaf and unable to hear the sounds around them.

This expression highlights the frustration and ineffectiveness of attempting to communicate with someone who is unwilling or unable to listen, understand, or acknowledge the message being conveyed. It often implies a lack of receptiveness, attention, or willingness to engage in meaningful dialogue.

In various contexts, this phrase can be applied to personal relationships, professional settings, or even broader societal issues. It underscores the importance of effective communication and the significance of actively listening and engaging in meaningful conversations to foster understanding and

What does the phrase “falls on deaf ears” mean?

collaboration.

In conclusion, when something “falls on deaf ears,” it means that the intended message or communication is disregarded, overlooked, or ignored by the recipient, highlighting the lack of receptiveness or attention given to the matter at hand.
