What does the proverb "Better safe than sorry" mean?

A. It is better to be sorry than to be safe.
B. It is better to take risks than to play it safe.
C. It is better to avoid risks than to regret not doing so later.
D. It is better to ignore potential risks and hope for the best.

Show Answer...**Correct Answer: C (It is better to take precautions and avoid risks than to regret not doing so later.)**</expand]

Explanation:

The proverb "Better safe than sorry" means that it is better to take precautions and avoid risks than to regret not doing so later. It suggests that it is wise to take action to prevent negative consequences, rather than simply hoping for the best and dealing with the consequences later.
Option A, "It is better to be sorry than to be safe," is incorrect because it goes against the message of the proverb, which is to prioritize safety over potential regret. Option B, "It is better to take risks than to play it safe," is also incorrect because it contradicts the meaning of the proverb, which emphasizes the importance of being cautious. Option D, "It is better to ignore potential risks and hope for the best," is also incorrect because it goes against the message of the proverb, which emphasizes the importance of taking action to prevent negative consequences.

In summary, the proverb "Better safe than sorry" means that it is better to take precautions and avoid risks than to regret not doing so later, and it suggests that it is wise to take action to prevent negative consequences.
