# What is 1/3 of 2,400?

A. 600
B. 800
C. 1,200
D. 1,800

Show Answer...
**Correct Answer: B (800)**

# Explanation:

To find 1/3 of 2,400, we can first find the value of 1/3 and then multiply it by 2,400. 1/3 is the same as 0.33333 (repeating). So, 1/3 * 2,400 = 0.33333 * 2,400 = 799.992. Rounded to the nearest integer, the answer is 800. Therefore, the correct answer is B (800).
