Show Answer...

Correct Answer: A (Divide)

The word 'bisect' means to divide something into two equal parts. What is a synonym for the word 'bisect'?

Explanation:

A synonym of the word 'bisect' is 'divide'. Both words have the same meaning of splitting something into two equal parts. However, it is important to note that 'bisect' is a more specific term that refers specifically to dividing something into two equal parts.

Subtract, add, and multiply are not synonyms of 'bisect' as they do not involve splitting something into two equal parts. Subtract involves taking away a quantity from another quantity, add involves combining two or more quantities, and multiply involves repeated addition of a quantity.

In conclusion, the synonym of the word 'bisect' is 'divide', and it is important to use the correct word when referring to dividing something into two equal parts.
