

# What is Cisgender?

- A. An individual who identifies with the gender they were assigned at birth
- B. An individual whose gender identity aligns with the sex they were assigned at birth
- C. An individual who does not conform to traditional gender roles and expectations
- D. None of the above

Show Answer...

**Correct Answer: An individual whose gender identity aligns with the sex they were assigned at birth**

Cisgender is a term used to describe individuals whose gender identity aligns with the sex they were assigned at birth. For example, a person who was assigned male at birth and identifies as a man would be considered cisgender. The term cisgender is often used in contrast to transgender, which refers to individuals whose gender identity does not align with the sex they were assigned at birth. Overall, cisgender is a term used to describe an individual's gender identity and how it aligns with societal expectations and norms based on the sex they were assigned at birth.
