

What is the average of the numbers 2, 4, 6, 8, and 10?

# What is the average of the numbers 2, 4, 6, 8, and 10?

- A. 5
- B. 6
- C. 7
- D. 8

Show Answer...

**Correct Answer: B. 6**

## Explanation:

The average of the numbers 2, 4, 6, 8, and 10 can be found by adding all the numbers together and dividing by the total count of numbers. The total is  $2 + 4 + 6 + 8 + 10 = 30$ , and the average is  $30 / 5 = 6$ .
