

What is the synonym of “Ramification”?

- A. Consequence
- B. Repercussion
- C. Branching
- D. Complication

Show Answer...

Correct Answer: C (Branching)

Explanation:

The synonym of “Ramification” is “Branching.” “Ramification” refers to the act of dividing or spreading out into branches or subdivisions. Similarly, “Branching” also implies the process of dividing or extending into separate branches.

Therefore, the correct answer is C, “Branching.”

Option A, “Consequence,” refers to the result or effect of an action, which is not an exact synonym for “Ramification.”

Option B, “Repercussion,” refers to the unintended or indirect consequences of an event, which is related but not synonymous with “Ramification.”

Option D, “Complication,” refers to the state of being complex or difficult, which is not synonymous with “Ramification.”
