Correct answer: b) Japan

Land of the Rising Sun

Japan is often referred to as the “Land of the Rising Sun” due to its location in the eastern hemisphere, where the sun rises. It is known as the “Land of the Rising Sun.” The name comes from the fact that Japan is located east of the Asian mainland, and the sun “rises” from the east. It’s also part of the national anthem and is frequently used as a symbol in art, literature, and poetry.
