

# Which of the following is NOT true about light?

- A. It is a form of electromagnetic radiation.
- B. It travels at the fastest speed in vacuum.
- C. It can be polarized.
- D. It is made up of tiny particles called photons.

Show Answer...

**Correct Answer: D**

## Explanation:

Light is not made up of tiny particles called photons. Light is a form of electromagnetic radiation and travels at the fastest speed in vacuum (the speed of light). Light can also be polarized.
